

OUSD ECE Education Plan - COVID -19

The ECE department is creating links for families to access activities to complete at home. Any resources you have for families please provide to them. ECE Teachers and IAs can be on campus in a staggered fashion or in small groups at the discretion of the principal. All staff need to be available during their normal working hours (unless sick/using sick leave), checking email at least once a day and any messages from your site leaders. **Teachers, please provide families with virtual learning experiences provided by the ECE department. (links below)**
