

Second Survey for Center-based/Direct Contract Early Learning Contractors

The CDE is requesting updated information from center-based/direct contract early learning and care programs to perform an analysis on contract funding and to assist in determining allocations of potential funding. This includes California State Preschool (CSPP), Migrant (CMIG), Family Child Care Home (CFCC), and General Child Care (CCTR) contracting programs, including CCTR contracts that provide services through a Family Child Care Home Network.

Instruction

In order to accurately assess need for funding as compared to current resources, it is imperative that every contractor respond to this survey. Per Management Bulletin 20-11, in order for CDE to have a statewide understanding, contractors must continue to report ongoing program operational status as directed and requested by the CDE. Each contractor should submit only one response. Additionally, it is important for the contractor to include both their direct service child care programs and any programs where subcontractors are providing services to ensure all child care services being provided are fully represented within their response. This will help ensure funding decisions and allocations represent all child care services.

Please provide responses by May 13th.
