

## **CDE Update: Interim Guidance on the Distribution of New Federal Funds to Support State-Subsidized Child Care and Updates on Pending Allocations**

On October 28, 2020, Governor Gavin Newsom signed an executive order allocating \$110 million from the Coronavirus Aid, Relief, and Economic Security (CARES) Act to address some of the additional costs incurred by Early Learning and Care programs.

- \$30 million for the cost of waived family fees for families not receiving in-person care so that contractors and providers do not have to absorb those waived fees.
- \$80 million for:
  - Augmenting California Alternative Payment Program (CAPP), Migrant Alternative Payment Program (CMAP), and General Child Care (CCTR) contracts to support over-earnings due to school-age children requiring full-time care.
  - Providing additional resources to extend the timeline of temporary Emergency Child Care services.

The CDE will be issuing additional guidance and information on how these funds will be allocated. In the meantime, **DO NOT disenroll children and families receiving early learning and care services due to over-earning your contract.**

### ***Family Fee Implementation***

- The CDE will be issuing a revised version of Management Bulletin (MB) 20-19 with additional information.

### ***Emergency Child Care Extension Implementation***

- The Budget Act of 2020 provided \$47 million to enroll Emergency Child Care families into ongoing care. However, some contractors were not able to fully utilize their allocation to move children from Emergency Child Care to ongoing care due to increased cost pressures related to providing care to school age children full-time. The \$80 million identified above will allow contractors to utilize their \$47 million augmentation to enroll children into ongoing care.
- The CDE will distribute funding to support temporary Emergency Child Care enrollment based on information reported to the Child Development Nutrition and Fiscal Services (CDNFS) office through the Alternative Payment/CalWORKs Online Reporting System.
- **To ensure contractors receive a distribution of funds, contractors must submit timely reports to CDNFS.**
- Children enrolled in temporary emergency child care can remain in care for as long as the contractor can fiscally support those children.

**Implementation of Additional Funds to Address Overearning**

- CDNFS will be collecting additional information to distribute additional funds to support contractors over-earning for CAPP, CMAP, and CCTR programs due to costs for school-age children requiring full-time care.
- **To ensure that contractors receive an accurate distribution of funds, contractors must respond timely to a forthcoming survey to collect data on increased costs for school-age children receiving full-time care.**

**Timeframes for Pending Allocations**

Pending Funding	Contract Type(s)	Expected Timeframe
CDE Stipends for CDE programs	C2AP, C3AP, CAPP and CMAP	<p>Contractors will receive checks the week of November 23rd.</p> <p>Contractors should make every effort to issue stipends to providers in early December. If stipends cannot be issued to all providers in the month of December for any reason, contractors must notify their ELCD Regional Consultant.</p>
CCTR Expansion	CCTR	<p>Contract Amendments will be processed beginning the week of November 23rd for programs that require start-up funding and/or have a site license and are prepared to provide early learning and care services. Amendments for expansion will be processed throughout the year as necessary.</p>
