

## **CDE Update: California Wildfires**

California State Preschool Programs (CSPPs) that have been required to close all sites and/or classrooms due to wildfire may request a closure credit for any reduction in days of operation by submitting a [Non-COVID-19 Emergency Closure Approval Request](#), in accordance with [Management Bulletin \(MB\) 21-10](#).

When time permits, and you may safely do so, please reach out to your [assigned regional consultant](#) to notify them of any closures and/or loss of facilities.

The California Department of Education (CDE), Early Learning and Care Division (ELCD) team extends our heartfelt condolences for those that have lost their homes, and/or businesses, or have otherwise been impacted by the fires. We are here to support you where possible and are providing resources that are available to you, your staff, and the families you serve.
